REMARKS/ARGUMENTS

Claims 26 through 28, claims 35 through 40, and claims 42 through 44 have been cancelled without prejudice or dedication to the public.

New claims 46 through 55 have been added in the application.

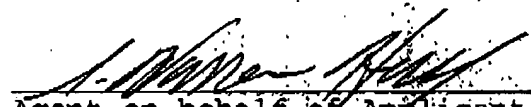

New claim 46 is a Jepson style claim to a power tool having the implement receiving collar and the various carriers as previously set out in the previous allowed claims to the drill accessory. New claim 46 closely follows previously allowed claim 29.

New claims 47 through 55 are dependent on claim 46 and include limitations to preferred embodiments of the structure.

Support for these claims is found on page 6 of the original disclosure, lines 18 through 29 where it is clear that any power tool such as a power drill or power screw driver can be used for driving of the drive shaft with the implement receiving collar bearingly supported thereabout. The preferred features are described throughout the detailed description.

In view of the above, we await the Examiner's further review and consideration of the application.

Respectfully submitted,

Agent on behalf of Applicant
